Skip downloading the APK app; all you need is a list of the 15 best Android TV apps worth downloading based on your respective criteria. Find more: 8 Android Box TV Launchers To Enhance Your User ExperienceNetflix Best Android TV box app for movies Price: Free or Premium (From RM 33.00) Netflix is no stranger to most consumers these days. Besides, this streaming giant is largely said to have changed our view of how we watch movies and TV series. It also allows us to binge-watch - a popular term where according to which people constantly watch movies and TV series such as the movie trio or the entire season in one sitting. If you're an avid movie fan who can't live a day without watching a single movie, Netflix is the best place to start. It may not contain the entire film category in one platform but it is certainly packed with a variety of genres from different countries such as action, horror, horror, science fiction and drama. Not forgetting to mention, Netflix has a lot of original movies that have received much praise around the world. Another good thing about Netflix is its economic price, which makes you as low as RM33 (one monitor) per month without contract obligations (that is, you can cancel it at any time!). If you larger budget to spare, you can choose RM42 (with HD and 2 screens) or RM51 (with Ultra HD and 4 screens). Read more: Watch Netflix on your non-smart TV With 7 best Android box/flix Best Free Android TV Box App Price: Free or Premium Plan (From RM 3.00) The best things in life are free and that's definitely true for our locally owned streaming platform iFix. All you have to do is download the app from Google Play and start watching movies, TV series or even football matches without paying a penny as long as it marks Free. The app interface is sharp and cleanly designed, making it easy for people to scroll and browse iFix's catalogue of different streaming content. But if you're looking to see premium content, iFix offers a flexible VIP plan that lets you pay weekly (RM3), every two years (RM6), monthly (RM10) or annually (RM96). Spotify Are you really a music lover if you've never heard of Spotify? In this life, music has become more than just a luxury, as you can discover many different artists from different countries. And thanks to the demanding music industry, artists are also releasing albums more often than ever. You should seriously consider Spotify if you love your music but don't have enough money to splurge on multiple albums. This digital music player app has an extensive library with millions of songs from indie to pop stars today. You can create playlists or even download your favorite songs (tied to apps) and listen to them offline. On top of that, Spotify can be accessed across multiple platforms on different devices like your smartphone and PC, all logged in at the same time. Viu This Hong Kong-based streaming platform is primarily known for offering Asian-like, film channels, series and varieties. Which means that if you like everything Korean, Viu has them in spades. Easily browse hundreds of different K-drama movies at your fingertips, where the app includes both past and recent series regardless of romantic comedy, drama or action genre. Best of all, you can watch them for free or go premium for only RM 8 a month. This gives you full access to their services such as allowing you to watch both free and premium content with SD or HD download options. Viki Best Chinese Drama Android TV box app Price: Premium (From RM 3.99) Viki owned by Rakuten specializes in providing Asian-related streaming content including Chinese and Taiwanese channels. Both movies and TV series are available, where you can filter your search based on its popularity (all times or this week) as well as recently added or top-rated options. For the app itself, the interface is simplified and simple enough for you to explore around with minimal fuss. There are basically two types of packages you can choose from: Viki Pass Basic only costs RM 3.99 a month, allowing you to watch your favorite movies or series in HD and with absolutely no ads. In addition, RM Viki Pass Standard gives you first access to apps like Viki Exclusives and Global Dramas.ESPN Best Android TV box for Sports Price: Premium (From RM 3.99) It doesn't need to be said that ESPN is more than just sports. This is where you can see highlights, scores and and update your favorite group with a simple tap. They basically cover all sports-related events under one platform, namely football (e.g. EPL, UCL), basketball (NBA) as well as tennis and even WWE. You can even access exclusive originals and premium articles! Live Football TV HD Best Android TV Box App for Football Price: Free A Fan of Football? Instead of going to your local mamak or switching from one channel to another, download this app and access all football matches and events in HD resolution. Despite the ads, users often appreciate the clarity of the matches and they can access all European leagues. The best Android TV box app for Games Price: Released for free again in May 2018, Steam Link is the answer for every gamer who loves streaming to their favorite game sessions from PCs to all Android devices. That means you can practically use them through on Android TV, smartphone or tablet as long as you have a strong, high-speed connection. Here's how it works: Install an app from Google Play for free, followed by pairing your controller (ex: Steam Controller, Bluetooth Controller, or trackpad mouse) and connect to your computer to run Steam. For a seamless gaming experience, it's best to use a wired or 5GHz WiFi ethernet network. Read more: 8 Best Android TV Boxes That Are Fun For Gaming Red Bull TV Best Android TV box app for Live TV Price: Free Red Bull TV offers a wealth of free-to-stream contents, covering everything from sports and achievements to films, documentaries and varieties that are hosted by Redbull. They also include a dedicated live TV feature, which allows you to scroll through various videos of competitions for sports such as cycling, mountaineering, dance, motocross and music. The app even includes some handy functions where you can add to your favorites or download videos for later viewing. An interesting feature is the Enhanced Reality (AR) experience, which allows you to watch realistic videos at 360 degrees. Kodi Best Android TV box streaming app Price: Free Kodi does not need referrals, especially if you are an Android TV user. Basically, it is a one-door media center that allows you to stream all your apps from different home devices on your home network using only one monitor. Think of it as your personal online library and you will approximately get ideas about Kodi's system. But the biggest selling point is its gadget feature. You can install from an archive, zip file, or even search yourself by importing any available apps you're looking for. It can be anything from movies and music to sports other programs. MobiSystem File Commander Best Android TV Box App for File Management Price: Free (With In-App Purchases) Too Many Apps? Among the highly recommended file management applications that you can install is MobiSystems' File Commander. It can do more than just sort any file on your cloud storage or Android device. Some features you can find include various file format conversions (for example.jpg, gifs, or txts), wireless PC file transfers, and support for file sharing and remote access. While you can use the app for free, File Commander also comes with a premium account through in-app products with prices starting at RM 3.50 or higher. This special account gives you access to additional features like Security Mode to encrypt sensitive data and the Recycle Bin to delete or retrieve files or folders. ExpressVPN's best Android TV box app for VPN Price: Premium (From RM 49.30) Let's face it, some video apps prein installed on your Android TV box are only accessible from a certain country or region. In other words, it's called geoblocking. But thankfully, you can ignore this problem by connecting to a virtual private network (VPN). Among the most trusted apps available is the ExpressVPN.The app comes with a lot of interesting features including powerful encryption. This means that your browsing history or IP address is secure and secure from the curious eyes of potential hackers and even government agencies. It also scores well in speed tests on most servers regardless of upload or download speed. Other highlights include a variety of servers from around the world to choose from to change or hide your original IP address as well as enable file sharing and torrenting. The best Android TV box app for Apple Price users: Free (with in-app purchases) If you own an Android device, it means you won't have trouble transferring content to the Android TV box. However, you will face compatibility issues if you are an Apple user. The best thing you can do is install an app called AirScreen.It that basically works by allowing you to mirror your Apple device (ex: iPhone, iPad) so you can stream saved videos and/or music on your Android TV box. It also supports various apps like Google Chrome and a YouTube channel. Google Chrome's best Android TV box app for browsing The Price: Everything for free is possible and includes using your Android TV to browse the web. If you don't have it yet, just install the app via voice command, search Google Chrome on your existing web browser, or search for it on the web version of Google Play Store.By install Google Chrome on Android TV, it lets you access your browsing history and all your saved bookmarks on a larger screen.
